LRF001

perception:enigma

April 10, 2023

Introduction

perception:enigma is an online platform that offers a unique opportunity to hone your research skills and logical abilities. Through a series of complex puzzles and challenges, **perception:enigma** will push you to your limits and test your ability to analyze information and identify patterns. With each challenge in the series, you will be presented with scenarios that require you to apply logic and mathematical reasoning to arrive at the correct solution. The platform was created by Linn Ruth Friberg (LRF) in 2023.

The Challenge

- Identify the American medical drama television series (airing between 2004 and 2012) the ball prop on the picture comes from.

- Adorning the wall, a CD is present, and LRF frequently collaborates with one of the artists featured on it. Who is this artist? *Hint: check LRF's "Data Echoes" database.*

- The name of the artist (first name) relates to the title of the medical drama (one word) as the name of the artist relates to - what? *Hint: Obama was the president of the USA, USA is located in North America.*

- Listen to the following uni.Sol_ album (link coming soon). After the first minute, you will hear the sequence of numbers. Compute the sum of the numbers.

- You should get **one word** (7 letters, ending with "D"), and **a three-digit number**, as the result.
